THE TRADE UNION OF KABARDINO-BALKARIAN STATE UNIVERSITY

KBSU trade union organizes and conducts events aimed at acquainting freshmen with the rights and responsibilities of a student of Kabardino-Balkarian State University, organizes admissions of first-year students to the membership of a trade-union student organization, provides accounting and control of students from socially unsecured families, carries out of the actions directed on propagation of a healthy way of life. Members of the union also provide legal advice, organize recreational activities for KBSU students, provide public control over the conditions of students' stay in the buildings and hostels of the university, as well as control development and implementation of measures for the social support of students: medical care, organization of cultural, mass, physical and health work, improving the quality of housing and communal services. Trade union activists are provided with training and are encouraged to promote student employment and the employment of young professionals in general. Leisure is organized for students in their free time (weekends, vacation periods). Not to mention, compliance with the rights and guarantees of students is monitored, and sociological research in the student environment is conducted. Proposals for the expansion of the social guarantees package is developed for KBSU students, with encouragement of students for active participation in public and scientific student life of Kabardino-Balkarian State University.

FUNCTIONS OF THE TRADE UNION:

- Protective functions of the rights of students violated by administrations or different levels;
- Assistance for the protection of students in the event of unlawful expulsion from an educational institution;
- Protection of the rights of students in punishment and deduction for disciplinary offenses;
- Organization of cultural and sports events;
- Introduction of students into hostels, including family ones;
- New Year's gifts for students' children;
- Free legal advice on all matters related to students.

RECOGNITION

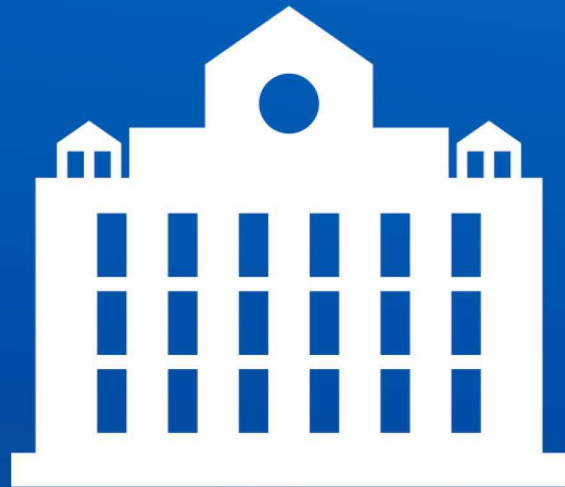

Kabardino-Balkarian State University managed to keep relations with traditional partner countries, such as: Jordan, Turkey, Syria. Citizens of these countries are represented in the proportions of students studying at the university in the largest number of students from other countries. KBSU also managed to expand the contingent of students from such countries as: India, Nigeria, Namibia, Ghana, Kenya, Tajikistan, and Turkmenistan. International activity is one of the most important activities of the Kabardino-Balkarian State University. The internationalization of education and the search for new forms of international cooperation is a priority for the development of KBSU international activity. Besides, great attention is paid to the promotion of KBSU in the global information space as a modern educational, scientific and cultural center, capable of preparing competitive specialists in the labor market in demand. The primary task in the sphere of international activities of the university is the search for foreign partners for the organization of mutually beneficial international cooperation.

Thus, in the reporting year, an agreement with the Russian Education Group was concluded on academic cooperation in the field of the selection and sending candidates to the University for the purpose of getting their education at the level of a bachelor, master, graduate, candidate and doctor of science in the fields and specialties, implemented by the University, as well as providing programs of secondary professional education and pre-university courses. As a result of work with this firm, KBSU in 2017 received 654 Indian citizens. In addition, as a result of work with the company, 153 citizens of Jordan entered the KBSU, including 25 people – under the programs of improving the professional skills and the program of professional retraining.

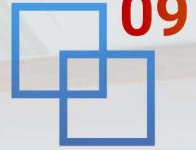

ACCOMMODATION

KBSU has a well-organized sports ground within the campus. Also, there is a wide choice of activities you can get engaged to: physical and intellectual competitions, vocal and music contests, beauty contests and other numerous entertainments. Broad international activity of the university provides an opportunity not only to learn foreign languages but also to take part in various internship programs in France, Germany, India, China, Mongolia, and Korea. Foreign students will be provided with all the living needs, specifically, a modern new hostel within the campus. Rooms in the hostel are constructed for 2 or 3 people and equipped with separate kitchen, bathroom, balcony and all other necessities.

ABOUT NALCHIK

SALARIA
OVERSEAS EDUCATION

Nalchik is the capital city of the Kabardino-Balkar Republic, Russia. The word «Nalchik» literally means «small horseshoe» in Kabardian. Nalchik is a balneological and mountain climatotherapy resort, with several sanatoriums. It also serves as an industrial center of the republic. The city is home to various facilities of higher education. The city has 3 amusement parks, 6 artificial lakes, 4 aerial lift roads, mineral springs, a huge park (one of the largest in Europe), which transforms into a forest, a zoo, and a hippodrome. The picturesque mountains around are favorable for camping, in particular for hiking and mountaineering. On the Malaya Kizilovka Mountain, opposite to the resort part of the city, there is the Sosruko restaurant complex and observation platforms with an overview of the city, its closest and distant surroundings, and mountain ranges.
